

**Expressive Arts & Design: Concept: Texture, Form & Space/Movement/ Comprehension/ Create and Communicate**

We will be focussing on 2 artists: Kandinsky and Matisse. We will be exploring the power of creativity and developing our skills to express our own creativity using the skills we have learnt over the year. As artists, we will explore using different materials and techniques.

**Understanding the world: Concept: Invention/ Sustainability / Properties and Motion**

We will be planting seeds in our outside area and learning how to help them to grow. We will also be sampling our produce and using them in our cooking.  
We will be inviting parents in for a junk modelling day to help the children to make their own space rockets.  
Learning about different types of technology and how technology can enhance our learning.

**Communication & Language: Concept: Speaking/ Listening and Attention**

We will be developing our skills to learn and innovate stories through our class texts (Beegu and The Three Little Pigs) We will be discussing the characters and give our opinions on how we can change the stories.

**Literacy: Concept: Rhyme**

We will continue to develop our phonic knowledge and use this to write our own innovated stories based on our class texts We will look at rhyme and create our own simple rhymes.

**Physical Development: Concept: Technique & Communication**

We will be practising our ball control skills and focussing on football. Then we will move on to athletics in preparation for sport's day. We will practice different skills with a focus on technique.

**Personal, Social & Emotional Development: Concept: Belonging/ Changes**

We will be celebrating special relationships and looking at what makes a good friend.  
We will talk about transition into year 1 and how to manage changes. We will be looking back over our successes from the children's first year at school and make new targets for the year ahead.

**Maths: Concept: Number Sense**

We will use our mathematical knowledge that we have developed over the year to solve simple problems.

We will look at 3d shapes and their properties and use Beebot to help us to develop our positional language.
